THE CASE FOR INVESTING IN SOUTH AFRICA

EXECUTIVE SUMMARY

ACCELERATING ECONOMIC GROWTH BY BUILDING PARTNERSHIPS
10 REASONS
WHY YOU SHOULD INVEST IN SOUTH AFRICA

1. VIBRANT EMERGING MARKET
   Growing middle class, affluent consumer base, excellent returns on investment.

2. MOST DIVERSIFIED ECONOMY IN AFRICA
   South Africa (SA) has the most industrialised economy in Africa. It is the region’s principal manufacturing hub and a leading services destination.

3. LARGEST PRESENCE OF MULTINATIONALS ON THE AFRICAN CONTINENT
   SA is the location of choice for multinationals in Africa. Global corporates reap the benefits of doing business in SA, which has a supportive and growing ecosystem as a hub for innovation, technology and fintech.

4. PROGRESSIVE CONSTITUTION & INDEPENDENT JUDICIARY
   SA has a progressive Constitution and an independent judiciary. The country has a mature and accessible legal system, providing certainty and respect for the rule of law.

5. FAVOURABLE ACCESS TO GLOBAL MARKETS
   The African Continental Free Trade Area will boost intra-African trade and create a market of around 1.3-billion people with a combined gross domestic product (GDP) of USD2.3-trillion that will unlock industrial development. SA has several trade agreements in place, creating an export platform into global markets.

6. ABUNDANT NATURAL RESOURCES
   SA is endowed with an abundance of natural resources. It is the leading producer of platinum-group metals (PGMs) globally. Numerous listed mining companies operate in SA, which also has world-renowned underground mining expertise.

7. ADVANCED FINANCIAL SERVICES & BANKING SECTOR
   SA has a sophisticated banking sector with a major footprint in Africa. It is the continent’s financial hub, with the JSE being Africa’s largest stock exchange by market capitalisation.

8. WORLD-CLASS INFRASTRUCTURE & LOGISTICS
   A massive governmental investment programme in infrastructure development has been under way for several years. SA has the largest air- and sea-ports, as well as logistics networks in Africa, and is ranked number one in Africa in the World Bank’s Logistics Performance Index.

9. YOUNG, EAGER LABOUR FORCE
   SA has a number of world-class universities and colleges producing a skilled, talented and capable workforce. The country boasts a diversified skills set, emerging talent, a large pool of prospective workers and government support for training and skills development.

10. EXCELLENT QUALITY OF LIFE
    SA offers a favourable cost of living, with a diversified cultural, cuisine and sports offering, generally superb weather all year round and a world-renowned hospitality sector.
THE SOUTH AFRICAN ECONOMY OFFERS A STRONG VALUE PROPOSITION

- The South African economy, which is the 30th largest in the world, is highly diversified in terms of sectoral composition.
- Its gross domestic product (GDP) of ZAR4.87-trillion (USD368.3-billion at the average USD/ZAR exchange rate for 2018) represents circa 16% of the African continent’s overall GDP.
- South Africa has the most developed and technologically advanced economy on the African continent. It is the region’s principal manufacturing hub and a leading services destination.
- It is one of the most open economies in the world (exports and imports collectively represented approximately 60% of gross domestic product in 2018), with preferential access to numerous global markets.
- South Africa is endowed with an abundance of natural resources.
- The country has an extensive and modern infrastructure network.
- South Africa has a sophisticated banking sector with a major footprint in Africa. It is the continent’s financial hub.
- It offers a supportive and growing ecosystem as a hub for innovation, technology and fintech.
- The composition of South Africa’s GDP is similar to those of developed economies – diversified and positioned to generate sustainable long-term returns on invested capital.

### SECTORAL COMPOSITION OF GDP IN 2018

- Finance, real estate and business services: 19.7%
- Trade, catering and accommodation: 15.0%
- Transport, storage and communication: 9.8%
- Construction: 3.9%
- Electricity, gas and water: 3.8%
- General government services: 18.1%
- Manufacturing: 13.2%
- Agriculture, forestry and fishing: 2.4%
- Mining and quarrying: 8.1%
- Personal services: 5.9%

Source: Statistics South Africa
A STRONG CONTENDER IN GLOBAL COMPETITIVENESS

- South Africa ranks 60th out of 141 countries in the World Economic Forum’s Global Competitiveness Index for 2019, an improvement from 67th position (out of 140 countries) in 2018. This places the country ahead of emerging markets such as Turkey, India and Brazil, as well as in 2nd position within Africa, after Mauritius.

SOUTH AFRICA’S GLOBAL COMPETITIVENESS PERFORMANCE SCORES* COMPARSED TO SUB-SAHARAN AFRICA’S AVERAGE, 2019
(*SCORES ARE ON A 0 TO 100 SCALE; 100 REPRESENTS THE OPTIMAL SITUATION OR ‘FRONTIER’)

FOREIGN DIRECT INVESTMENT SUPPORTING GROWTH AND DEVELOPMENT

- Foreign direct investment (FDI) flows into South Africa rose sharply in 2018 to ZAR70.6-billion, from ZAR26.8-billion in 2017. The positive momentum continued in the first semester of 2019, considering strong FDI inflows valued at ZAR38-billion.

- South Africa’s attractiveness as an investment destination is expected to improve over the next couple of years, underpinned by greater policy predictability, a progressive recovery in the economy’s performance and improving business and investor confidence. A task team led by the Presidency is looking at ways of addressing the policy, legal, regulatory and administrative barriers that have been constraining investment activity.

TRENDS IN AND COMPOSITION OF FDI STOCK IN SOUTH AFRICA (AT CONSTANT PRICES)

ECONOMY POISED FOR FASTER GROWTH

- The South African economy experienced modest to subdued growth over the past decade. Structural as well as cyclical factors, alongside policy inertia and uncertainty, affected business, consumer and investor confidence, impacting on production and investment activity.

- Positive signs are emerging that the economy's performance is turning around. A wide range of short-term interventions and long-term reforms will raise the economy’s growth rate going forward and ensure a more inclusive and shared expansion path. These will progressively address the structural constraints that have been affecting investment decisions, in the process raising investor confidence.

- Although subdued growth is anticipated in the short-term, the economy’s performance is expected to improve significantly in the years ahead. The South African Reserve Bank estimates real GDP growth at 0.6% for 2019, projecting it to rise to 1.5% in 2020.
  - As households strengthen their balance sheets, spending activity is likely to rise at a progressively faster pace. An accommodative monetary policy stance should alleviate the interest payment costs associated with household debt and, alongside rising disposable incomes in real terms, be supportive of a gradual rise in consumer spending over time.
  - As business and investor sentiment recovers on the back of gradually improving demand conditions locally, along with positive developments in regional markets, growth in private sector investment is expected to garner stronger momentum.
  - Out of the ZAR300-billion in investment committed at the inaugural South Africa Investment Conference held in October 2018, around ZAR250-billion worth of projects are in the implementation phase.

- The South African economy has the potential to grow at a considerably faster pace than current projections indicate, particularly as the envisaged structural reforms and enhanced policy predictability progressively address current constraints to growth and lead to improved confidence among businesses, investors and consumers.
PLATFORM TO SUPPORT GROWTH: WORLD-CLASS INFRASTRUCTURE IS A COMPETITIVE ADVANTAGE

PLATFORM TO SUPPORT GROWTH: SOUTH AFRICA HAS PREFERENTIAL ACCESS TO KEY WORLD MARKETS

- South Africa is a member of the World Trade Organisation.
- Access to global markets has been enhanced through bilateral agreements with most of South Africa’s major trading partners. Preferential access to key export markets has been secured through various agreements and by participating in regional economic communities.

### Agreement name | Type of agreement | Countries involved
---|---|---
Southern African Customs Union (SACU) | Customs union | South Africa, Botswana, Lesotho, Swaziland, Namibia
Southern African Development Community (SADC) Free Trade Area (FTA) | Free trade agreement | 16 SADC member states
African Continental Free Trade Area (AfCFTA) | Progressive liberalisation of tariffs | 54 member states of the African Union (AU)
Economic Partnership Agreements (EPAs) | Free trade agreement | SACU-EU EPA plus Mozambique and Angola
European Free Trade Association/Southern African Customs Union (EFTA-SACU) FTA | Free trade agreement | SACU and EFTA (Iceland, Liechtenstein, Norway and Switzerland)
African Growth and Opportunity Act (AGOA) | Unilateral assistance measures (non-reciprocal) | US and 39 sub-Saharan Africa countries
Generalised System of Preferences (GSP) | Unilateral (non-reciprocal) | SA and EU, Norway, Switzerland, Russia, Turkey, the US, Canada, Japan
SACU-Mercosur | Preferential trade agreement | SACU and Argentina, Brazil, Paraguay and Uruguay

An economic partnership agreement (EPA) has been concluded between the five member states of SACU plus Mozambique on the one side, and the United Kingdom (UK) on the other side. The SACUM-UK EPA, which basically replicates the terms of the existing SACU-EU EPA in terms of tariffs, rules of origin, and health and safety standards, will come into effect in the event of the UK leaving the European Union.

- Diversified export sector and wide global reach.

### LEADING MARKETS FOR SOUTH AFRICAN EXPORTS, 2018 (ZAR 1 246.2-BILLION)

POLICY FRAMEWORK INCENTIVISES INVESTMENT TO STIMULATE GROWTH: INDUSTRIAL POLICY SUPPORT

South Africa is actively seeking to enhance investment levels

- A focused and purposeful industrial strategy has been adopted, and Master Plans are being developed by government in conjunction with business and labour for sectors with high potential for growth.
- South Africa provides active support for investors by providing a wide range of incentives, including a comprehensive suite of tax incentives for investment in special economic zones (SEZs).
- Investment in labour-absorbing industries is encouraged through various mechanisms.
- Financing assistance is provided by state-owned development finance institutions (DFIs) such as the Industrial Development Corporation (IDC), the Development Bank of Southern Africa (DBSA) and the Land Bank.

Industrial policy framework

- Comprehensive suite of financial grants, tax incentives and other forms of business support for investors.
- Policy and administrative reforms to stimulate investment.
- Incentives for investment in special economic zones.
- Attractive support and incentive system and financing by state-owned DFIs for industrial development and investment promotion.

INDUSTRIAL POLICY SUPPORT: SPECIAL ECONOMIC ZONES

Incentives offered by Special Economic Zones (SEZs) include:

- Preferential 15% Corporate Tax rate;
- Value-added Tax and Customs Duty suspension in customs-controlled areas;
- Employment incentive;
- Building allowance; and, among others,
- Preferential land rental and utility rates.

Ten designated special economic zones covering seven provinces:

- Atlantis (Western Cape);
- Coega (Eastern Cape);
- Dube Trade Port (KwaZulu-Natal);
- East London (Eastern Cape);
- Maluti a Phofung (Free State);
- Musina-Makhado (Limpopo);
- Nkomazi (Mpumalanga);
- OR Tambo International Airport (Gauteng);
- Richards Bay (KwaZulu-Natal);
- Saldanha Bay (Western Cape).

SOUTH AFRICA’S PORTS
POLICY FRAMEWORK INCENTIVISES INVESTMENT TO STIMULATE GROWTH: ECONOMIC TRANSFORMATION & REFORM

Drivers of change ...

... Government’s efforts to effect transformation

<table>
<thead>
<tr>
<th>Key sectors/areas</th>
<th>Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Mining</strong></td>
<td>• New Mining Charter gazetted in September 2018 and came into force in March 2019.</td>
</tr>
<tr>
<td></td>
<td>• Current Mineral and Petroleum Resources Development Act remains applicable, with the Amendment Bill having been withdrawn to provide greater certainty for the mining sector.</td>
</tr>
<tr>
<td><strong>Land reform</strong></td>
<td>• The Presidential Advisory Panel on Land Reform and Agriculture, established in September 2018, put forward several recommendations to correct the skewed distribution of land in South Africa. These complement and reinforce the work undertaken by the Inter-Ministerial Committee on Land Reform, chaired by the Deputy President. The panel’s report, which was presented to Cabinet, recommended, among others: legal mechanisms to recognise, record and enforce a continuum of land rights; the identification by government of well-located and unused/under-utilised land and buildings for the purpose of urban settlements; and a participatory and democratic, area-based approach to identifying land needs. The panel also argued that expropriation without compensation is not, by itself, a solution to land reform, but simply one of the means of acquiring land.</td>
</tr>
<tr>
<td></td>
<td>• A process is under way in the National Assembly to initiate and introduce the necessary legislation, taking into consideration the work done and recommendations contained in the reports of the Constitutional Review Committee and the Ad Hoc Committee on Amendment of Section 25 of the Constitution.</td>
</tr>
<tr>
<td><strong>Transport and telecommunications</strong></td>
<td>• In line with the goal of making it easier to do business in South Africa by reducing port and rail tariffs, the Ports Regulator announced a 6% decrease in tariffs in November 2018 and also lowered container and automotive cargo dues. Commencement of the spectrum licensing process is imminent, opening up investment opportunities in the digital and telecoms sectors.</td>
</tr>
<tr>
<td><strong>Energy</strong></td>
<td>• The government’s long-term energy plan is expressed in the Integrated Resource Plan (IRP) 2019. The IRP 2019 provides a roadmap for planned energy generation and the evolution of the energy mix over the period to 2050, outlining a progressively lower relative contribution by coal-based electricity generation to total energy supply over time, towards an envisaged 58.8% by 2030.</td>
</tr>
<tr>
<td></td>
<td>• Enhanced impetus for renewable energy to replace decommissioned coal generation capacity.</td>
</tr>

Source: (charts) World Bank Doing Business 2019 (data)

**Government’s efforts to improve South Africa’s rankings**

**Starting a business**
- Expand the one-stop shop approach to ensure potential investors are not shunted between various departments.
- Register a company in a day using self-service terminals.
- Online search portal for company names.
- The Companies and Intellectual Property Commission (CIPC) has implemented mobile apps.
- South Africa is introducing a single platform for businesses to register for the Unemployment Insurance Fund and the Workmen’s Compensation Fund.

**Registering a property**
- Move to online property registration, and electronic online checking for rates and clearance certificates.
- Work is under way to streamline processes, reducing information asymmetry and reducing costs for registering a property.

**Trading across borders**
- South Africa has implemented a Preferred Trader Programme and is working towards undertaking joint inspections and adopting new customs legislation.
- South Africa participates in the Global Coalition for Efficient Logistics as regional anchor that integrates domestic and other African small-, medium-, micro- and cooperative-enterprises into global markets through B2B digital trading tools.

**Paying taxes**
- Online e-filing system; improve the transparency of information and documentation required.
- Progress is being made towards reducing the time taken for VAT audits.

**Contract enforcement**
- Enforcing contracts has been made easier through the amendment of the monetary jurisdiction of lower courts and the introduction of voluntary mediation.
SECTORAL STRENGTHS OF SOUTH AFRICA’S NINE PROVINCES

Gauteng:
- Financial and business services
- Information and communications technology
- Transport and logistics
- Basic iron and steel, steel products
- Fabricated metal products
- Motor vehicles, parts and accessories
- Appliances
- Machinery and equipment
- Chemical products, pharmaceuticals
- Agro-processing

Mpumalanga:
- Mining
- Tourism
- Forestry, paper and paper products, wood and wood products
- Agriculture and agro-processing
- Metal products

Limpopo:
- Mining
- Fertilisers
- Tourism
- Agriculture
- Agro-processing
- Energy, including renewables (solar)

KwaZulu-Natal:
- Transport and logistics
- Tourism
- Motor vehicles, parts and accessories
- Petrochemicals
- Aluminium
- Clothing and textiles
- Machinery and equipment
- Agriculture and agro-processing
- Forestry, pulp and paper, wood and wood products

Eastern Cape:
- Motor vehicles, parts and accessories
- Forestry, wood and wood products
- Clothing and textiles
- Pharmaceuticals
- Leather and leather products
- Tourism
- Renewable energy (wind)

Northern Cape:
- Mining
- Agriculture and agro-processing
- Fisheries and aquaculture
- Renewable energy (solar, wind)
- Jewellery manufacturing

Western Cape:
- Tourism
- Financial and business services
- Transport and logistics
- ICT
- Agriculture and agro-processing
- Fisheries and aquaculture
- Petrochemicals
- Basic iron and steel
- Clothing and textiles
- Renewable energy (solar, wind)

Free State:
- Agriculture and agro-processing
- Mining
- Petrochemicals
- Machinery and equipment
- Tourism

Source: Industrial Development Corporation (IDC)
ATTRACTION OPPORTUNITIES ACROSS SEVERAL SECTORS

**AGRICULTURE AND AGRO-PROCESSING**
- Fruit and vegetable packaging & canning
- Fruit juice processing
- Processing of organic, vegetarian, dehydrated foods
- Meat processing
- Aquaculture
- Expansion of dairy value chain
- High-value additives and nutraceuticals
- Non-edible oil processing
- Crop production for feedstock into biofuels processing
- Indigenous plant and flower growing

**MINING AND MINERALS BENEFICIATION**
- Coal-bed methane: coal-to-liquid; coal ash utilisation to address acid mine drainage; carbon capture and storage
- Manganese value chain development
- Vanadium as a strategic input to energy storage
- Development of titanium value chain, especially titanium dioxide
- Ferrochrome production, revitalising chrome value chain
- PGMs beneficiation, development of fuel cell industry

**MANUFACTURING**
- Motor vehicles, parts, accessories
- Other transport equipment (eg heavy vehicles, aircraft, vessels, rail equipment)
- Machinery and equipment
- Metals fabrication
- Chemicals, plastics
- Pharmaceuticals
- Footwear, leather industries
- Clothing, textiles
- Cosmetics
- Fast-moving consumer goods

**ADVANCED MANUFACTURING**
- Fuel cells
- Energy storage
- Speciality materials
- Electronics
- Aerospace
- Defence industries
- Medical devices and emerging telemedical instrumentation
- Speciality chemicals, including biochemicals
- Additive manufacturing, including 3D printing

**SERVICES**
- Tourism
- Business process outsourcing
- Financial and insurance services
- Internet of Things-related opportunities
- Film production and support services
- Oceans economy-related services (eg shipbuilding, repairs, maintenance)

**INFRASTRUCTURE**
- Energy generation infrastructure, including renewables
- Energy efficiency
- Transportation and logistics infrastructure
- Water infrastructure
- Telecommunications infrastructure
- Agro-logistics and rural infrastructure
- Recycling
SOUTH AFRICA AS A REGIONAL GATEWAY: THE AFRICAN CONTINENT OFFERS A MYRIAD OF OPPORTUNITIES

<table>
<thead>
<tr>
<th>Sector</th>
<th>Opportunity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agriculture and agro-processing</td>
<td>Africa has 60% of the world's uncultivated arable land, with value-adding opportunities in the food processing sector; it has abundant water resources for energy generation, irrigation and potable water.</td>
</tr>
<tr>
<td>Mining and minerals beneficiation</td>
<td>Africa is a major player in producing various mineral resources such as platinum, chromium, diamonds, gold, bauxite, cobalt, copper, phosphate and uranium. The continent has almost 8% of the world's oil reserves. Its enviable resource endowment provides vast opportunities for investment in mining and minerals beneficiation.</td>
</tr>
<tr>
<td>Hydrocarbons, particularly natural gas</td>
<td>Large offshore and onshore gas reserve discoveries in, for example, Mozambique and Tanzania present huge development opportunities for energy generation, among others.</td>
</tr>
<tr>
<td>Manufacturing</td>
<td>There is a wide range of opportunities, including the development of value chains such as petro-chemicals, food processing and beverages production, minerals beneficiation and metal products fabrication, forestry and wood processing, textiles and clothing, footwear, etc.</td>
</tr>
<tr>
<td>Infrastructure</td>
<td>There are massive development opportunities across the infrastructure spectrum, including input requirements associated with Africa's ongoing infrastructure and industrial development drive.</td>
</tr>
<tr>
<td>Forestry and wood processing</td>
<td>There is massive potential in commercial forestry and downstream development in the respective value chains.</td>
</tr>
<tr>
<td>Consumer goods</td>
<td>Africa has just over one billion consumers, a young population, rising disposable income, a growing middle class and increasingly sophisticated consumer segments. These factors are indicative of numerous opportunities for consumer-oriented sectors.</td>
</tr>
<tr>
<td>Banking sector/financial services</td>
<td>There has been rapid growth in the past decade, with financial sector reforms underpinning this momentum.</td>
</tr>
<tr>
<td>Information and communications technology</td>
<td>This has been an important driver behind Africa's economic growth in recent years, underpinned by an already substantial and rapidly expanding subscriber base.</td>
</tr>
<tr>
<td>Regional integration</td>
<td>Regional economic communities (for example, SADC, SACU, Common Market for Eastern and Southern Africa (COMESA) and East African Community (EAC)) are key drivers of economic growth, investment activity in infrastructure and productive activities, as well as intra-African trade. The African Continental Free Trade Area (AfCFTA) will bring together 54 African countries with a combined population of approximately 1.3-billion people and a GDP of USD2.3-trillion.</td>
</tr>
</tbody>
</table>
South Africa has the most developed, diversified, technologically advanced and industrially integrated economy on the African continent.

The country remains one of the preferred investment destinations in Africa and is also an important gateway for markets and other business opportunities throughout the continent.

The South African economy has become increasingly diversified over the years, thereby reducing its sectoral concentration risks, particularly in mining. This has unlocked a diverse range of high-yield investment opportunities, predominantly but not exclusively in sectors with high export propensities.

The success of many domestic industries in export markets is indicative of inherent global competitiveness.

The economy boasts an extensive and modern infrastructure network, which is being expanded further as a massive investment programme is rolled out by the public sector. Together with various other forms of industrial support from the South African government and other public sector institutions, this provides an attractive pull factor for investors.

The South African economy has the potential to achieve a higher growth trajectory through the unlocking of competitive advantages in key sectors of the economy as well as implementation of institutional and governance reforms to support a sustained recovery in business and investor confidence.

Confidence in the South African government’s ability to address structural impediments, including the achievement of greater policy coherence, consistency and certainty, as well as its focus on entrenching a business-friendly and investment-supportive environment, will attract investor interest and increase capital spending, from both domestic and foreign sources, in the domestic economy.

These developments, alongside anticipated recovery in global growth over the medium-term, augur well for South Africa’s very open economy, with significant catalytic ramifications for long-term investment prospects across a wide variety of sectors.
