3	The tender speaks of stand type 2 specification to be 6mx2mx2,5m - does the 2,5m refer to the height of the stand required? Further down in the tender it speaks of a back-wall with a recess graphic 4000mmh – this is in conflict with the 2,5m mentioned above. We require some clarity around this.	Technical	The 2.5m is height of the stand The 4000mm refers to the back wall graphics that has the IDC logo on it
