

Tender Number: T47/10/21

REQUEST FOR PROPOSAL FOR CONSULTING ENGINEER SERVICES FOR THE PROVISION OF BOREHOLES TO SELECTED MUNICIPALITIES INCLU

Question and Answers Version 1

No.	Question	Type	Answer
1	With regards to Page 21, item 2 in the table Total cost of works (excluding VAT). Is the bidder supposed to give cost of works at this stage? Or only consulting engineering fees?	Technical	The bidder should provide indicative costs for the cost of works as part of the submission.
2	May you please assist with the MISA document that is required during proposal development. Or is the paragraph on Annexure 5 is all bidders need for submission?	Technical	Annexure 5 refers to the MISA Borehole and Specification Methodology.
3	Can bidders propose alternatives methodologies for Annexure 5?	Technical	Bidders are required to review and provide commentary on the Borehole and Specification Methodology document from MISA as per Annexure 5. Bidders are also required to submit a sound, practical and cost-effective Construction Solution, having reviewed the MISA methodology. Bidders may propose alternative methodologies but should bear in mind that it will be the duty of the service provider to ensure approval of layouts and specifications by MISA and the local municipality.
